

# STATIONS

One day a way from work

# Introduction

Racing cars stop for preventive and break down maintenance after some rounds. Also they study what they did to improve themselves in the next race.

You do service to your body, car, computer regularly. What about your mind, thoughts, beliefs and skills ?

You can do that in several stations you design to your employee. Annual gathering is a great opportunity to do that.

# Pause. Check your Skills Results

Catch the spark before it become a fire.
